EDUCATION

University of Denver Coding Program, Denver, CO

June 2017 - January 2018

An immersive and informative program that covered the skillsets needed for front and back end development.

Kirkwood Community College, Cedar Rapids, IA

2000 - 2002

Relevant courses of study included: Fundamentals of Speech, Psychology of Human Relations, Data Processing, Computer Applications, Culture and Technology.

EXPERIENCE

ABC Imaging, Denver, CO — *Production/Graphics Manager*

October 2007 - PRESENT

Manage and train eight workers, making sure production crew meets deadlines while maintaining quality control. Create and design graphics for custom orders. Competent to run all machinery in the shop. Manage inventory, work with third party vendors, and work with other stores throughout the country. Excellent attendance record.

Pearson Educational Measurements, Cedar Rapids, IA — *Machine Operator II*

2001 - 2007

Operated and maintained high-speed laser printers to produce quality output according to deadline schedules. 5C Federal Clearance for contracts dealing with government sensitive documents. Received perfect attendance award on multiple occasions.

PROFICIENT SKILLS

Graphic and print design, Adobe Illustrator, InDesign, Photoshop, and Acrobat.

PRIMARY SKILLS

JavaScript, jQuery, CSS, HTML, Bootstrap, Git, Github, and Command Line.

EXPERIENCE WITH

Node.js, Express, MongoDB, MySQL, Firebase, React.js, Media Queries, APIs, JSON, REST, AJAX, computer science fundamentals, and writing tests.

MY GOALS

To apply my current graphic and print design skills to focus on the user experience through front-end design.

APPLICATIONS BUILT

The Barista, 2017

- A web app that will search any city and provide a list of 30 coffee shops in the area. The results show where the shops are located on a Google Map, and the results are sorted by which coffee shop receives the best tip-to-check-ins ratio (at least as reported by Foursquare users).
- Uses Firebase, AJAX, API's,
- One of four developers. I worked on the javascript and JQuery portions as well as making the majority of the Git commits and pushes.
- <https://aaronwey.github.io/project1>
- <https://github.com/aaronwey/project1>

TRAIN SCHEDULER, 2017

- Web app that provides up-to-date information about various trains, namely their arrival times and how many minutes remain until they arrive at their station. Allows user to add trains and their starting times.
- Uses Firebase, Moment.js
- Lead developer
- https://avenje.github.io/train_scheduler

Friend Finder, 2017

- This full-stack site will amass results from users' surveys, then compare their answers with those from other users. The app will then display the name and picture of the user with the best overall match.
- Uses Express.js, Routes.js, Node.js
- Lead developer
- <https://safe-cliffs-63356.herokuapp.com>

Crash Test Giphys, 2017

- A dynamic web page of a GIF generator. There are pre-made buttons for categories to choose from or one can search for a theme by using the search box. The searched item will create its own button.
- Uses AJAX, API's
- Lead developer
- <https://avenje.github.io/giphy-api>
